Orona 360°, your single service partner

We dedicate our time so you can enjoy yours.

A highly qualified service is summarised in time and comfort.

How can we guarantee repairs will be solved as quickly as possible?

It is all a matter of management and foresight.

Orona has developed a logistics system, agile and supported with technology to ensure parts availability and offer support and maintenance packages for all equipment manufacturers.

An outstanding service is having everything at your fingertips.

1. Rolling Stock Warehouses

The most commonly used items that allow rapid response times are stored in maintenance technicians' vehicles.

2. Local warehouses in every country

- Delivery in less than 48 hours within the country.
- Local warehouses connected to the central warehouse (SGS).
- Intelligent Parts management system manages availability in local warehouses and vehicles based on local portfolio, brands and models.

3. Spare parts warehouse at Orona headquarters (SGS)

- We manage spare parts for all lift and escalator brands and technologies. Multi-brand spare parts are classified depending on the manufacturer, model type and criticality.
- Orona's (SGS) central multi-brand distribution centre is located adjacent to our innovation centre and manufacturing plants.

Connected at any time by our web tools.

- Orona CRC (web catalogue) provides our Technicians efficient Parts order management for any requirements and tracking availability
- Remote management of spare parts
- Total traceability of parts.

MULTI-BRAND

Providing service and support for all manufacturers equipment.

Our experience and training allow us to offer solutions even if your lift is not Orona.

Our proficiency in the design, research and installation of lifts has allowed us to absorb all the technologies on the market. Orona's multi-brand service consists of knowing the operation, mechanism and parts of any other lift as if it were our own. We can deal with any brand.

This is the basis of our multi-brand service.

Multi-brand technology

We carry out detailed monitoring of the service. Local and centralised monitoring dynamics are performed regularly.

Repairs and spare parts for other technologies on the market

Development of multipurpose designs for modernisations

Multi-brand engineering

We have a specific Multi-brand Engineering team, with highly qualified engineers. This model is based on three key pillars:

- **Laboratories**
Facilities dedicated to researching and designing tailored solutions.
- **Documentation**
The knowledge acquired through Multi-brand Engineering is compiled in documentation accessible to the technical staff
- **Technical Support**
Support in the event of any incident or information request.

Research laboratories

Accessible documentation

Technical Support

Multi-brand training

All Orona maintenance service technicians receive on-going multi-brand training to achieve the best level of service to which we are committed, both for Orona models and for any other brand on the market.

On-site courses with mock-ups and models

E-learning Platform

We take care of you.

We embrace meaningful innovation, for the benefit of our customers.

We develop solutions to satisfy you. Innovating is not just developing something different, it is making a difference and improving your daily life. The design you see, the light which illuminates your environment, the information on the screen, the quality of the journey is our way of striving to make your life more comfortable, pleasant and safe.

Service for you

ORONA WEB SERVICE

Orona has a Web platform that allows comprehensive monitoring of the state of the facilities and their service.

Technology designed to offer you a better service

ACTIVITY

Orona has developed an App that offers all activity-related information in real time. Thanks to this application, our technical team has remote access to all this data, providing an agile and complete response.

ORONALINK

Our technicians have the latest communication technology which allows:

- Automation of the maintenance process
- Access to the installation information
- Solving incidents in a reduced time

OTC ORONA TECHNICIAN CARE

This mobile application system monitors our technical team when they work in an isolated location.

MSO MAPPING SYSTEM OF ORONA

Thanks to this tool in Orona we monitor the location of all our lifts with the aim of optimize the routes of our technicians and improve our response times.

Give your lift a new life.

We know how

Modernising your lift means increasing the value of your building, optimising energy consumption and improving your user experience on each journey. It is changing a part to transform everything.

We can work with you to assess, prioritize and plan your project without the need for major building works.

- The modernisation of the main components optimises the performance and behaviour of the lift, increasing equipment lifespan and improving performance.
- Modernization programs allow us to meet the needs of each facility and customer requirements.
- We offer the modernization of all brands and models using Orona equipment or specific third-party products.
- Our experienced team includes experts on new equipment and legislative requirements.

The place where ideas develop...

Orona Ideo is the place where ideas, inspiration and future innovation meet.

Orona Ideo, together with our production plant, embraces the values that underpin Orona's strategy. It's much more than a set of facilities, it is the key to developing and consolidating any idea or project.

- Over 5,500 professionals
- Number 1 in production capacity in Europe for complete lifts
- Over 60 years' experience
- Direct presence in 12 countries and export to over 100 countries.
- 2 production plants
- 2% investment in innovation
- In the top 5 of lift companies in Europe

... and where we make them happen.

Our values make us different.

INNOVATION >>

creativity, audacity, vision... our approach to sustainable innovation.

PROACTIVITY >>

is resolving mobility challenges in short distances through our products and services platform.

CLOSENESS >>

to customer service and to the user experience. Closeness is the way we express that caring for people comes first.

COMMUNITY >>

it is the people that surround us, the environment in which we move, the place we serve. We collaborate to create a future without forgetting our origins. An organisation that puts the customer at the centre of what we do.
